

Results for Specific Groups of Students: **Adult**

Results of Adult Students Who Received Comprehension Instruction

Pre- and Posttest Percentiles

Average Standard Score Changes

Summary

Lindamood-Bell® Instruction Implemented: Visualizing and Verbalizing

Years: 2008-2018

Average Age: 26.1

Number of Students: 354

Average Hours of Instruction: 104.6

Results: On average, Adult students who received Visualizing and Verbalizing® instruction achieved significant improvements in comprehension. They made large (significant) standard score changes on two of four measures. Additionally, the 18-point percentile increase in following Oral Directions put these students within the normal range (25th–75th percentile). Their pre- to posttest results were statistically significant on all measures.
