

Online Safety for Lindamood-Bell Academy Students

The safety of our online learners is of utmost importance to us, especially during this transition to distance learning. In the interest of both safety and transparency, we want to alert you to important steps we have taken to ensure our students stay safe during their online sessions.

We have applied and continue to refine the internet safety tools in place on the Academy issued computers in use by your student. These tools monitor and block any requests to websites or web content that is not salient to the Academy learning experience in order to provide a safe and conducive learning environment for your student and our staff. Should a student exhibit sustained attempts to access sites not relevant to Academy learning, you will be contacted by your Academy team.

If you have any questions or concerns about the steps we are taking to ensure online safety, please don't hesitate to contact us at privacy@lindamoodbell.com.
