# Keep learning all year with the *Imagery-Language Connection*

Your membership to our professional learning community, the *Imagery-Language Connection*, is the best way to **build on new skills** after attending a genuine Lindamood-Bell Workshop. *Become a subscriber and gain access to valuable, program-specific content.*

## Live Coaching: Online Job-embedded PD

After the Workshop, teachers can receive live coaching. Lindamood-Bell experts, via telepresence robot or online video conference, provide program step demonstrations with students, for the benefit of teacher learning. Having an expert “on site” is an invaluable opportunity for teachers to ask questions about the program steps in real time.

*“This morning I did my first digital V/V® Imagine That! story. I can’t wait to dive into the workbook! I just wanted to let you know that you made distance teaching so much easier for me through online coaching, as well as online classes. You thought you were only teaching content!! Guess again!”*

~Dorit Battaglia, teacher

*“One of our most important tools is Lindamood-Bell... It's been in our district for 10 years. When you tell parents they're going to be getting extra support in Lindamood-Bell, it's not 'What is that?' It's 'Oh, good!'”*

Michael Zoerhoff, Superintendent, Kentwood Public Schools
