Our Global Impact

Through the combined efforts of our community partners and donors, the Lindamood-Bell Foundation has gifted scholarships that have exceeded \$150,000 to needy families over the past two years.

We are proud to make a difference for students in need around the world. Scholarship recipients are of all ages (from eight to adult) and have a range of learning difficulties including dyslexia, autism spectrum disorder, and attention deficit hyperactivity disorder. These students live across the United States and internationally. Many lack access to learning resources and support in their communities.

I learned to be a better reader and a better student and to overcome my adversities and believe in myself.

- Student with dyslexia

This scholarship was life-changing for our daughter.

She has struggled in school from the very beginning. Now, most days she sits in class confident and able to do most of her language arts assignments independently.

She is a completely different little girl. She is confident and loves to learn.
