

# Hyperlexia

## Students with a Prior Diagnosis of Hyperlexia Who Received Comprehension Instruction Only

### Pre- and Retest Percentiles

### Average Standard Score Changes

### Summary

**Lindamood-Bell Instruction Implemented:**  
Visualizing and Verbalizing

**Years:**  
Jan. 2008 – Dec. 2024

**Number of Students:**  
120

**Average Age:**  
12.5

**Average Instruction Hours:**  
126.6

**Results:** On average, students with a prior Hyperlexia diagnosis who received Visualizing and Verbalizing instruction achieved significant improvements in comprehension. Additionally, 9-point percentile increases in receptive (Vocabulary) and expressive (Word Opposites) vocabulary put these students within the normal range (25th–75th percentile).
