## Post-Graduate Professional Development Credit

UMass Global awards post-graduate professional development credit with the successful completion of course requirements. These credits are not part of a degree program but are primarily used for professional advancement such as salary increment steps and recertification. Students should seek approval from appropriate district or college officials before enrolling in these courses to satisfy any degree, state credential, or local school district requirements. State licensing departments vary regarding criteria for credit acceptance, and some states may not accept credit from universities that are located outside the state.
